**Scientific Profile Requested**

| Requirements:        | Promising young researchers.  
|                      | Bachelor’s or master’s degree in Mathematics, Physics, Engineering or Computer Sciences, eager to achieve a PhD degree in Applied Mathematics. |
| Skills and track-record: | Good communication and interpersonal skills.  
|                       | Ability to effectively communicate and present research ideas to researchers with different background (mathematicians and medical doctors).  
|                       | Ability to clearly present and publish research outcomes in spoken (talks) and written (papers) form.  
|                       | Good command of spoken and written English.  
|                       | General knowledge about machine learning  
|                       | Good programming skill Python and/or C languages |

Free access to the Public Health System in Spain is provided to all employees.
Scientific Profile:
The preferred candidate will have:
- Interest for developing methodological research in machine learning
- Interest in applying machine learning techniques to advanced manufacturing problems

Application and Selection Process

Formal Requirements:
The selected candidate must have applied before the application deadline online at the webpage http://www.bcamath.org/en/research/job

The candidates that do not fulfil the mandatory requirements will not be evaluated with respect to their scientific profile.

The candidate will take part in a collaborative project between BCAM and ITP.

Application:
Required documents:
- CV
- Letter of interest
- 2 recommendation letters

Evaluation:
Based on the provided application documents of each candidate, the evaluation committee will evaluate qualitatively: the adaption of the previous training and career to the profile offered, the recommendation letters, the main results achieved (papers, proceedings, etc.), the statement of past and proposed future research and other merits; taking in account the alignment of these items to the topic offered.

Incorporation:
Summer 2019 or as soon as possible thereafter.
